To Whom It May Concern:

Subject: Recommendation for Daniela Koleva

The Aleksander Foundation, invited Daniela Koleva to perform an interactive workshop in Body Language & Business Etiquette on the 14th of December 2014 . Due to the high demand our seats were fully booked and we were forced to change the venue.

At the event more then 200 people participated in the interactive exercises and listened to different theories about behaviour, motivation and human interaction. Daniela Koleva's alternative approach made a lasting impression, attendants were encouraged to stand up during the workshop, constantly experimenting with their body language and participating in variety of case situations. We strongly recommend Daniela due to her professional attitude and excellent presentation skills.

Mrs. Koleva is devoted to continue supporting the Bulgarian higher education through The Aleksander Foundation by joining us for other workshops. As partners we have deep respect for her work and knowledge, we believe that she is an excellent professional in her area of expertise.

Please do contact us if you need more specific information about Daniel Koleva.
